## Catalyst Blog

Allpoints is wrapping up a large (25 RTU) Energy retrofit for customer in Des Plaines. The “Catalyst” as it’s known, is a constant volume rooftop retrofit that controls the fan motor, economizer and loading and unloading management of the unit.

This customer received a large rebate from ComEd and is looking at a 40% savings in energy each year. This project cash flowed right away through the use of our financing option, making it extremely advantageous to proceed with it.
