

Creative thinking saves customer \$15,000.00 when Allpoints replaced (2) 20 ton A/C units at this Athletic Club

Low-Cost Protection

Purchasing a pro-active maintenance agreement may be the best investment you'll ever make! Allpoints maintenance agreements are scheduled in advance and often times the entire year is planned out at the time of the initial start-up. Service frequencies are based upon the manufacturer's recommendations, the operating conditions of your building and input from our professionally trained technicians.

Tangible savings with a maintenance agreement are many and not just in soft costs. If you're A/C system is not properly charged the compressor has to run longer, work harder and consume more electricity. If your filters are plugged this can cause changes in duct pressure which contributes to inefficiencies and operating problems. Often times dirty filters can cause dirty coils. Dirty evaporative coils reduces the heat exchange between the refrigerant and the air passing through the coils. When this occurs it can cause compressor problems and certainly comfort issues. When outside air linkages or controls are not working properly you could be bringing in hot humid outside air or just as bad, no fresh air at all! With regular service checks your technician can head off many of these service problems which can be a big savings in avoiding repairs, as well as plant shutdown. Most maintenance agreements pay for themselves over time, but the real savings comes with reducing downtime, improving productivity and being able to plan for your repairs avoiding the cost of emergencies and unscheduled downtime.

Allpoints chosen as Chicagoland Energy Retrofitter for constant volume rooftop units. The "Catalyst" retrofit has been recognized for its innovation and energy saving technology. Customers are seeing 2-3 ROI as well as offsetting maintenance agreement costs. Feature article coming next month.

Mechanical Services

Heating Repair, Monitoring, Ventilation, Retrofit, Data Logging, Air Conditioning Installation, Indoor Air Quality, Refrigeration, Sheet metal, Air / Water Balancing, Piping, Chemical Treatment, Maintenance Agreements, Engineering, Mechanical Audits, Air Compressor Maintenance

Electrical Services

Power Controls, Lighting Specialties, Main Services Troubleshooting, Plant lighting, Plant Relocation, Service Upgrades, Machine Wiring, Office Lighting, Hazardous Area Wiring, New Service Design, Emergency Lighting, Code Violations, Power Distribution, Panels Security Lighting, Thermo graphic Reports, Machine Feeds, Motors, Pole Lighting, Data Cabling, Bus Duct, Lighting Audits, Electrical Audits, Transformers, Maintenance Agreements, Machine Tool Troubleshooting

Plumbing Services

Plumbing Maintenance, Repair Replacement, Drain Cleaning, Water Jetting, Television / Fiber Optic Inspection, Underground Line Detection, Installation Piping

Construction Services

Design Build, Value Engineering, Piping, Project Specific General Contracting, Project Management, CAD Drawings

Equipment Serviced

Air Driers, Reciprocating Chillers, Unit Heaters Unit Ventilator, Controls, VAV Boxes, Electric Motors, Boilers, Computer Room Units, Air Compressors, Condensing Units, Burners, Cooling Towers, Air Handlers, Condensers, Centrifugal Chillers, Fans, Make Up Air Units, Refrigeration, Screw Chillers, Furnaces, Air Cooled Chillers, Rooftop Units, Humidification Systems, Heat Pumps, Portable Chillers Coils

Allpoints Serving Chicagoland Since 1996
